

Remote Work Policy Handbook

Northlight Analytics | People Operations | Version 3.2 | Effective January 2026

1. Purpose and Scope

This policy defines how employees of Northlight Analytics are expected to work in a fully distributed environment. It applies to all full-time, part-time, and contract staff working outside of a company-leased office.

2. Core Working Hours

Teams operate asynchronously by default, but every employee must maintain at least 4 hours of overlap with their team's designated core hours, shown below.

Team	Core Hours (local team time)	Overlap Requirement
Engineering	10:00 AM - 2:00 PM	4 hours
Customer Success	9:00 AM - 1:00 PM	4 hours
Sales	8:00 AM - 12:00 PM	4 hours
People Ops	10:00 AM - 3:00 PM	3 hours

3. Home Office Stipend

Employees receive a one-time setup stipend and an annual refresh budget to maintain a safe and productive home workspace.

- One-time setup stipend: \$750, available after 30 days of employment.
- Annual equipment refresh budget: \$300, resets every January 1st.
- Approved purchases include: monitor, chair, desk, keyboard/mouse, headset, webcam, and lighting.
- Stipend requests are submitted through the Expensify portal under category 'Remote Setup'.

4. Time Zone & Location Changes

Employees must notify their manager and People Ops at least 2 weeks before relocating to a new time zone or country. Some relocations may affect payroll, tax residency, or benefits eligibility, and require legal review before approval.

5. Meeting Etiquette

- Default to async updates in Slack or Notion before scheduling a synchronous meeting.
- All meetings with 3+ time zones represented must include an agenda posted 24 hours in advance.
- Record and post a summary for any meeting where a team member could not attend live.
- No-meeting Wednesdays are observed company-wide to protect focus time.

6. Performance Expectations

Remote work is evaluated on output and outcomes rather than hours logged. Managers and direct reports agree on quarterly goals (OKRs) during planning week, and progress is reviewed in bi-weekly 1:1s.

7. Policy Review

This policy is reviewed annually by People Ops in Q1. Employees may propose changes through the #remote-work-feedback Slack channel at any time.
